**Name a puppy**

*Dogs saving lives*

# As a small charity we are immensely proud that each one of our puppies is a valued individual with their own character.

One day they will go on to become part of a family with the skills to really make a difference to someones life by becoming a fully qualified medical alert dog.

As an individual, company, school or group you can support us and make a huge difference by naming one of our new puppies.

For a minimum donation of £500 you will help support a puppy through his training and contribute to his wellbeing and care.

Your thank you pack will include a framed photograph of the puppy you have named. During his training you will receive puppy and charity updates as well as being invited to meet him.

**Claydon** named by the children at East Claydon School

**Toby** named by Keith and Helen White

**Dizzy** named by [www.dizzy.org.uk](http://www.dizzy.org.uk)

**Lucky** named by Lauren

## PLEASE NOTE

We cannot be certain of the breed of puppy or the length of time you may have to wait but, will endeavour to give your chosen name to a puppy as soon as possible. Although every effort will be made to enable a puppy, there can be no guarantee he will eventually qualify as a registered alert dog. Occasionally we realise a dog may work well as a part of the cancer detection dog programme and he may join that team.
